

This year, Staff CIP was planned with the end in mind of reaching out to more elderly in our community. Therefore, our staff members took part in the Staff CIP activity differently, whereby we divide ourselves into three groups and did CIP with three different organisations namely, Bethany Methodist Nursing Home, Evergreen Place and Econ Life Hub (Yew Tee Branch).

Staff members who went to Bethany Methodist Nursing Home engaged the elderly by playing games with them while staff members who visited the Evergreen Place, led a group of P5 pupils and engaged the elderly by performing song items and played games with the elderly. Staff members who chose to take part in Econ life Hub CIP activity brought the elderly on a learning journey to a farm near Sungei Buloh Wetlands. Elderly from the three different organisations have a good time interacting with our staff members and they enjoyed the activities or trip that we have planned for them which made staff members find meaning in the CIP activities they took part in especially

A group photo with the elderly at Econ Life Hub.

Both the elderly as well as the staff members were engrossed in the learning experience at the farm.

Our teachers and students enjoying themselves as they performed for the elderly at Evergreen Place.
